

In an effort to constantly provide you with the best possible service, the *Société des casinos du Québec* wants to improve your gaming experience on our slot machines. We'll be progressively implementing a technology that is now used in major casinos around the world. This new technology allows you to play on our machines or cash in your winnings using a single ticket.

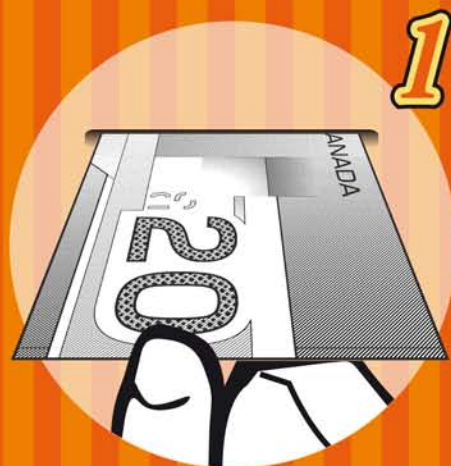

QUICK TICKET

The QuickTicket lets you play on various slot machines without having to handle change. The ticket also means less time spent waiting at the cashier's cage.

The QuickTicket in three small steps:

1

Insert money into the slot machine and play.

2

After playing, remove the QuickTicket.

3

Insert the QuickTicket into the bill slot to play again or cash in your winnings at a Casino Privileges wicket or cashier's cage.
